### Disaster Management

Emergency managers think of disasters as recurring events with four phases: Mitigation, Preparedness, Response, and Recovery. The following diagram illustrates the relationship of the four phases of emergency management

**Preparedness**  
to prepare for managing the crisis

**Response**  
to save lives and minimize immediate impacts

**Recovery**  
to restore activities and services

**Prevention**  
to minimize impacts of future disasters

submit

### Precautions to be taken

- Take cover under a sturdy table or other pieces of furniture, and hold on until the shaking stops.
- Stay away from buildings, streetlights, and utility wires.
- Turn on your radio/TV to learn and follow the precautionary instructions during a tsunami warning, primarily when you reside near a coastal area.
- Be alert to changing weather conditions.

#### EMERGENCY PREPAREDNESS

- MAKE A PLAN
- BUILD A KIT
- BE INFORMED
